

Lecture 2 Operating System structures

- 1 Please read the Chapter 2 of Operating System Concepts (the "dinosaur" book).
- 2 you should have an idea about the operating-system structures including services, interfaces, and so on.
- 3 you should understand about system calls. What is purpose for using system call?
- 4 you should understand the principal of operating-system design and implementation.

Understand the terms:

- 1 system call
- 2 batch processing
- 3 monolithic kernel
- 4 microkernel
- 5 loadable kernel modules
